

# 96TH ANNUAL REPORT

Fiscal Year

July 1, 1987 to June 30, 1988

CITY OF

RUTLAND, VERMONT

# 96TH ANNUAL REPORT

Fiscal Year

July 1, 1987 to June 30, 1988

CITY OF

RUTLAND, VERMONT

On Saturday, May 7th, 1988, a group of about forty boy scouts, garden club members, public works foreman and citizens at large pitched in and planted eighteen trees along a barren stretch of South Main Street. In the days that followed over forty additional trees were planted all along South Main St.

## Mayor's Message

Jeffrey N. Wennberg,  
Mayor of Rutland

To The Honorable Board of Aldermen  
and Citizens of Rutland:

Fiscal 1988 was a very busy year for the City of Rutland. Challenges large and small and opportunities of all sorts combined with several home-grown initiatives to keep the city departments hopping.

In September, I was honored to lead a delegation composed of Aldermanic Board President Donahue, Alderman Welch, Teacher Lou DiAngelo, Businessman David Mosher, Marie Triller of *Rutland Seasons* magazine and Dick Stillson of Rutland Cablevision to our sister city of Ishidoriya, Japan. The week-long trip was in response to a similar visit by a delegation from Ishidoriya held a year earlier. The mission to Ishidoriya was a total success, as it cemented this international program which was started by Mayor Daley. Special thanks to the dozens of individuals and businesses who contributed to the program, reducing the financial burden on the delegates and insuring that no taxpayer dollars would be required to support this program.

1988 should also be remembered as a milestone year in regional cooperation — including the achievement of an agreement by which the developers of a shopping mall in the Town of Rutland would provide unprecedented levels of assistance and compensation to the city, insuring that the public service burdens of this development would not fall to Rutland City taxpayers.

Another example of regional cooperation is the financial restructuring of the Rescue-8 Paramedic program. For years Rescue-8 operated county-wide, providing life saving and life sustaining emergency medical services to persons in need of cardiac, accident and all manner of acute medical care. Over half of the paramedic-level calls served residents of communities other than Rutland City, and although a program of this sort needs to serve a large population to work efficiently, the city taxpayers could no longer afford to pay the entire

bill. Thanks to the work of a special Blue-Ribbon Committee and financial assistance from the Regional Ambulance Service, The Rutland Regional Medical Center and dozens of area towns and rescue squads, half of Rescue-8's funding now comes from non-city taxpayer sources. This cooperative effort insures a solid financial future for this vital service.

The challenges of the new year are substantial. We must continue our efforts to upgrade our zoning and other land use ordinances. We must continue the excellent start toward a downtown master plan which was begun by the Rutland Partnership, and encourage more private sector involvement such as the leadership already shown by Central Vermont Public Service Corporation. We must implement the decision to add a non-toxic corrosion inhibitor to our water distribution system and thereby improve the quality of our drinking water. And we must continue to challenge those who would develop properties outside our borders to show that their projects do not place unfair burdens on the already overtaxed people of the City of Rutland.

The ultimate challenge before the City of Rutland is that of the property tax. In order to avoid substantial reductions in services or substantial increases in taxes an aggressive effort

to redevelop our community will be required. In addition, new revenue sources such as more assistance from the state, a new 'state aid to education' formula which treats communities like Rutland City fairly, or voter approved revenue options at the local level will be necessary if we desire to move away from the regressive and thoroughly unjust property tax as

a principle source of revenue to fund local services.

Finally, I would like to thank the Board of Aldermen for their hard work and support, and all of the employees of Rutland for the fine work they have done in service to the people of our community.

# Board President's Report — 1988

Thomas L. Donahue, Board President

To the Citizens of Rutland:

As anticipated, the past year proved to be a very exciting one for the City of Rutland. We have made great strides towards regional cooperation with the formation of the Inter-Municipal Impact Committee and with an agreement with developers to build a shopping mall outside our borders that impact will be offset by compensation within our borders.

We have finally approved the subdivision regulations for our city which if complemented by zoning regulations will again make it possible to properly govern development in Rutland and protect our neighborhoods.

We now have a Police Commission in place to assist the Police department in carrying out its duty to protect and serve the community. With programs like Neighborhood Watch and the 911 emergency number in the works we'll all be a bit safer.

Working with the State of Vermont we have completed the preliminary work on the State Street widening project slated to begin in the Spring of 1989. This is one more step towards relieving city traffic congestion.

In 1988 we successfully executed a student exchange made possible by the Sister City Agreement reached with our friends in Ishidoria, Japan. A special committee appointed by Mayor Wennberg did a wonderful job in organizing the agenda.

Looking to the near future you will see the unveiling of a new sculpture for Depot Park donated to the city and you will see plans unfold for an elaborate Centennial celebration.

All in all last year was positive for Rutland

but it had its share of drawbacks as well. For instance, the closing of the Vicon Waste to Energy Facility which left us with delinquent taxes and put us in a difficult position in disposing of our garbage.

Fortunately the Board of Aldermen at the urging of our Solid Waste District Representative had the foresight to insist the Gleason Road landfill not be permanently closed but instead become temporarily inactive. Thanks to the firm position the Aldermen took, Rutland avoided a major and potentially costly crisis and was able to immediately start up landfill operations at the dump to handle our garbage.

Due to drastic increases in many property valuations throughout Rutland, taxpayers experienced an unusually high increase in property tax assessments. This must be addressed in next year's budgets, not only by the Mayor and the Board of Aldermen but school officials as well, in order to hold down the tax rate.

Your Board of Aldermen worked diligently last year on projects too numerous to mention. Each board member took their work very seriously. A good example was the tireless dedication exhibited last year by the last Alderman Laurent "Larry" LaMontagne. I would like to take this opportunity to thank my fellow board members for another year of service and for a job well done.

Again this year I must thank our City Clerk Rosemary Finley for another fine job assisting us as clerk of the board and I would like to thank the Mayor, department heads and employees for their cooperation throughout the year.

#### RUTLAND CITY BOARD OF ALDERMEN

Standing: Robert Stafford, John Cassarino, Arthur Crowley, Jr., Barry Keefe, President  
 Thomas Donahue, Charles Franzoni, Nicholas Barone, Sigismund Wysolmerski.  
 Seated: Patricia Donnelly, David Sagi, City Clerk Rosemary Finley.

## Board of Aldermen

Regular meetings of the Board of Aldermen are held on the first and third Mondays of each month at 7:30 p.m. in City Council Chambers.

## Report of the City Assessor

John J. Collins, City Assessor

To the Honorable City Council and the Citizens of Rutland, Vermont:

It is my pleasure to submit the annual report of the Assessor's Office for the fiscal year ending June 30, 1988.

Since the last Annual Report this office has completed the reappraisal of all city property, an effort begun in 1985. Notices of new assessments have been mailed to all property owners and at this writing we are winding up grievance hearings.

As a result of the reappraisal the Grand List at April 1, 1988 stood at approximately 655

million dollars, an increase of nearly 40% over last year's Grand List.

After adjustments made by this office and the Board of Civil Authority it is expected that the city will publish the results of this reappraisal.

I would like to take this opportunity to thank the Treasurer's Office, City Clerk's Office, Building Inspector's Office, Data Processing Office and my predecessors in office for their cooperation and assistance given this office.

Respectively submitted,  
John J. Collins  
Assessor

## Report of the Building Inspector/Zoning Administrator

John J. Kollmer, Building Inspector/Zoning Administrator

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I am pleased to submit to you the Annual Report of the activities of the Building Inspector/Zoning Administrator's office for the Fiscal Year ending June 30, 1988.

I wish to thank the Mayor, Board of Aldermen, Board of Zoning Adjustment, the Planning Commission and all the department heads and their departments for their cooperation and assistance.

### INSPECTIONS PERFORMED:

- 1235 Certificates of Occupancy
- 31 Public Hearings
- 28 Sign Permits Issued

### BUILDING AND ZONING PERMITS ISSUED:

41	Single Family Dwellings	\$ 3,072,191.
7	Multi-Family (2 or more units)	688,000.
18	Condominiums - Residential - 2 Units	595,000.
3	Condominiums - Residential - 3 to 4 Units	240,000.
4	Commercial Buildings	666,950.
1	Hospital - Expansion	14,410,000.
1	Private Club	866,497.
131	Residential Renovations	1,500,158.
28	Garages	108,496.
13	Swimming Pools	120,050.
4	Mobile Homes	74,230.
15	Demolitions (@ \$15 ea.)	225.
266		\$ 22,341,797.

# Report of the City Attorney

Henry C. Brislin, City Attorney

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

This has been a very busy year for the City Attorney's Office. Assistant City Attorney John Holler resigned and was replaced by Christopher Sullivan. For a number of months, I had to cover the duties of both offices.

In addition to the numerous routine matters involving this office in handling litigation, advice to the department heads and boards, and the handling of union matters, I would like to highlight major efforts of the office.

The Public Service Board of the State of Vermont held hearings on the reopened permit application for the Vicon Plant. I attended ten full days of hearings in Montpelier, as well as all the necessary review and preparation for that. A new amended permit was granted by the Public Service Board.

The contracts with the unions representing the Department of Public Works, Police Department and Fire Department were finalized during this last year. Negotiations for these were commenced in early 1987. The Police Contract was finalized by an Arbitration award rendered after arbitration hearings. Many of the issues resolved in that award were incorporated into the Department of Public Works contract which was later agreed to. This came about as a result of a long day with the arbitrator acting as a mediator. The Fire Department Contract was the first one resolved, having been arrived at by agreement.

The City of Rutland instituted a Police Commission during the past year. This came about

by a charter change. I authored the first draft of this charter change, which was fine-tuned by the board of Aldermen after input from the Chief of Police. The question then went to the voters and you overwhelmingly approved it. It then went to the Vermont Legislature for approval. The Mayor, Alderman Wysolmerski and I testified before the committee of the legislature as to the purpose of the change, and the strong voter support for it. It was passed and signed into law by Governor Kunin.

The structure of the Assistant City Attorney's Office was materially changed this past year. The Assistant City Attorney is also Grand Juror, and in that capacity, prosecuted criminal offenses and motor vehicle offenses that occurred in the City. The job had evolved almost totally to prosecution. This incurred a cost to the City of about \$50,000.00 for the Grand Juror and the support staff and supplies, for the purpose of doing work that is handled everywhere else in the State by the State's Attorneys. While the City received income from fines, this income came to the City whether the State's Attorney or Grand Juror prosecuted. For this reason, it was felt that the investment in legal services by the City would be better spent doing City legal work, and so the job was changed. The only prosecutions now handled by the Grand Juror are for ordinance violations, such as building code violations. This has provided valuable support within my office.

## Office of the City Clerk

Rosemary F. Finley, C.M.C., City Clerk and Purchasing Agent

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

The following is the Annual Report for the Office of the City Clerk for the year ending June 30, 1988:

### MEETINGS AND MINUTES

Minutes of the following meetings were recorded:

Board of Aldermen	30
Board of Civil Authority	5
Board for Abatement of Taxes	9
Public Hearings	10
Board of Finance	55
Board of Highway Commissioners	19

### TAX APPEALS

The Board of Civil Authority comprised of the Mayor, Aldermen, Justices of the Peace and the City Clerk heard and rendered decisions on 9 Tax Appeals.

### LAND RECORDS

8,155 pages of land records were recorded and microfilmed during the year.

### LICENSES

The following licenses have been processed and issued by this office to date for the current license year:

First Class Beverage Licenses	62
Second Class Beverage Licenses	46
Business Licenses	210
Dog Licenses	1,190

### ELECTIONS

The Annual City Election and the Statewide Presidential Preference Primary were held on March 1, 1988.

### VITAL RECORDS, CALENDAR YEAR 1987

Births		787
Resident Births	226	
Non-resident Births	561	
Deaths		527
Resident Deaths	248	
Non-resident Deaths	279	
Marriages		237

### CHARTER CHANGES

At the Annual City Election, held March 1, 1988, the voters of the City of Rutland approved a series of 18 Charter Amendments that resulted in the creation of a Police Commission. Charter Amendments establishing five year terms for the Police and Fire Chiefs were also approved. The amendments approved by the voters were subsequently approved by the Vermont State Legislature and signed into law by Governor Kunin.

### ORDINANCES

During the year the Board of Aldermen approved 11 revisions to the Ordinances of the City of Rutland and an amendment to the Municipal Plan. During the budget process to establish the Fiscal Year 1989 City Budget, an allocation was approved to have the City Ordinances completely recodified and proposals for professional services were invited from recodification firms. This process will take approximately one year from start to finish and will result in completely revised and up-dated Charter and Ordinances for the City of Rutland that will be in compliance with all applicable laws.

### PURCHASING

The Mayor and the Board of Aldermen approved the establishment of the position of Assistant Purchasing Agent. Susan O. Eckhardt filled the position in March of 1988. The creation of this position will enable the City to establish and implement professional purchasing procedures and establish liaison with State and private purchasing agencies.

I would like to thank Mayor Wennberg, the Board of Aldermen, all City Departments and personnel, and especially the staff of the City Clerk's Office for their continued support and assistance.

# Constable and Tax Collector Report

Vernon Richards, Constable and Tax Collector

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

As City Constable and Tax Collector of the City of Rutland, I am pleased to submit for your consideration the financial report of this office for the period July 1, 1986 to June 30, 1987.

Real Estate and personal property taxes collected during the period amounted to \$586,332.47.

General bills include water and sewer installations done by the City, sidewalk and curb improvements, tree removals and other expenses totaled \$4,422.45.

Water and sewer assessments amounted to \$66,211.87.

The cumulative total for all monies collected by this office for this period was \$656,966.80.

May I take this opportunity to thank sincerely the Honorable Mayor, City Attorney, other City officials and employees for their cooperation efforts during the past year.

## Emergency Management Report

Aldo M. Manfredi, Director, Emergency Management

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I am pleased to present the Annual Report of the Emergency Management Office for the Fiscal Year ending June 30, 1988.

I responded to several general alarm fires in which the department assisted in obtaining assistance from the Red Cross and Salvation Army for the victims of the fires.

The October 4th snow fall disrupted many services due to the heavy snow. The Emergency Operating Center was activated with the Mayor, the Deputy Director - Ted Pratt and the Salvation Army and the Red Cross standing by in case they were needed to render assistance. Fortunately, Rutland City escaped with little damage compared to other areas in the southern part of the state. This office coordinated with emergency services in the aftermath of this storm well into the afternoon of October 5.

In October, I attended a two day workshop on leadership at the Hogge Penny Inn and in February on effective communications which was held at the Holiday Inn and was sponsored by the State Emergency Management Office, with Mr. Ken Stewart of Washington, D.C. as

principle instructor. These were well attended by City personnel.

This office arranged for Hazardous Materials Training Programs which were held at the Rutland City Fire Department and sponsored by the State Emergency Management Hazardous Materials Training Specialist, Kelman Craige.

I chaired the "Rescue 8 Blue Ribbon Committee" which was successful in gaining funding from many Rutland County communities who avail themselves of this most important service.

I am currently working with representatives from New England Telephone Company for the installation of "9-1-1" Emergency Telephone Service. Hopefully, it will be in place before the end of the year. This system will make it easier for our citizens to receive emergency assistance in all types of emergencies requiring police, fire or medical services.

As Chairman of the City Departmental Safety Committee, we coordinated with the various departments on a VOSHA inspection that lasted approximately two weeks. The City was in better shape on this inspection than they were on

*School Crossing Guards: George Fields, Edward Roucoulet, Floyd Daniels, Francis Heffernan, Terry Pratt, Joseph Gutzwiller, Beverly Culver, Brenda Pickens, Doris Gero*

the 1984 inspection, according to the VOSHA inspectors.

The School Crossing Guard Program was again a success even though it is becoming more difficult to find people for this most needed service. Hopefully, conditions will improve during the next year.

The Rutland city Emergency Fuel Fund was again administered by this office and was again successful in assisting many needy families in obtaining fuel oil or L.P. gas during the winter months. All funding for this comes from the City Council of Churches.

I attended all monthly meetings of the

Regional Ambulance Service as the City representative.

The Communications division assisted both MSJ and CKS with their annual Walk-a-Thon.

In May I attended the first annual Emergency Management Conference which was held at Lake Morey in Fairlee, Vermont. This was widely attended by many people and plans are to conduct a second conference next year.

In closing, I would like to thank the Mayor, the Board of Aldermen, City officials and employees, volunteers, the State Emergency Management staff and the news media for the cooperation given to this office in the past year.

## Fire Department

Gerald T. Lloyd, Chief Engineer

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I am pleased to submit herewith the Annual Report of the Rutland City Fire Department. During the past year, this department initiated a training program previously approved by the Board of Aldermen which, when completed, will bring the level of proficiency in firefighting to meet or exceed the standards that have been set for professional firefighting, by the Federal government regulations, OSHA, the Vermont Training Council and requirements established by the NFPA.

Additionally, all new employees are required to fulfill certain training programs and may be required to have specialized training in selective fields prior to appointment to permanent positions within this department. During the past year, members of this department were once again afforded the opportunity to attend training sessions in fire protection and prevention, fire suppression and paramedic and rescue advanced programs. Twenty six members of this department took advantage of these training opportunities. This policy will continue in order to provide the best trained and informed firefighter to handle the emergency needs of this community.

During the past year, a blue ribbon committee was impaneled to study the operations and funding procedures of our paramedic program. As a result of this study, the paramedic program was reorganized with two new paramedic officers being named and a schedule of assessments was established where participating communities were charged an annual fee for receiving this service.

Steps were taken that will insure that this most essential program will remain an effective and integral part of this department for the purpose of providing the most cost efficient and professional emergency medical services for the citizens of our community. Specifications are being drawn up for a vehicle to replace Rescue 8 which is now eight years old and once the bids have been studied and awarded, it will be approximately 180 days until the delivery of this new unit.

A sinking fund has been established for the paramedic program that will provide the money for future vehicle replacement, educational needs and additional equipment purchases as may be required in the future.

Donations were made to this department by

business and civic agencies. The General Electric Company donated \$3,000 which was used to refurbish and update our portable lighting system. The Rutland American Legion Post 31 donated \$500 which was used to upgrade our computer system. This department, along with the Rutland City Police Department and the Vermont State Fire Marshal's office, is exploring the possibility of establishing an arson investigation bureau for the purpose of jointly investigating fires of suspicious origin that may take place within this community. A decision regarding this matter will be made once all facts and information have been obtained.

Your fire department responded to 915 fire calls, an increase of 20 over the previous year. There were 1,332 rescue paramedic calls, an increase of 18 over the previous year. This department responded to 259 special service requests for citizens assistance. Also this department responded to 42 hazardous material incidents which were all handled with positive results. The department was involved in 8 general alarms including one tragic fire which resulted in the loss of an infant child. This department and our community was deeply saddened by this loss.

The new Gruman Aerial 102 Ft. ladder tower was used extensively during the year and was of great value to this department during the Lindholm fire where it was used for fire suppression and to protect the adjacent building exposures. This equipment was used for 16 consecutive

hours without any type of malfunction or breakdown. The Lindholm fire was of suspicious origin and is still under investigation by the Rutland City Fire Department, the Vermont State Fire Marshal's office and the Rutland City Police BCI unit.

Our fire safety information program continued throughout the year and representatives of this department spoke to over 800 students about fire prevention methods and safety programs in the home during National Fire Prevention week. Extensive use was made of the local media, newspapers, radio and television to promote fire safety awareness within our community and to demonstrate the need for smoke detectors in the home.

A dear and close personal friend of this department died on 11/28/87. The passing of Laurent LaMontagne has been a loss to all persons who are dedicated to the interest of public safety and fire prevention. Larry was responsible for making our community a much better and safer place to live and by carrying out his duties as Building Inspector and Alderman, he improved the quality of life within this community. The fire prevention methods that he introduced into the Building Inspector's office will remain a part of the fire prevention techniques used by this city for many years to come.

I wish to thank the members of this department, Mayor Wennberg, the members of the City Council and Department heads for their cooperation and assistance during the past year.

## **Grand Juror/Assistant City Attorney**

**Christopher P. Sullivan, City Grand Juror/Assistant City Attorney**

To the Honorable Board of Aldermen and Citizens of City of Rutland:

This past fiscal year ending June 30, 1988 has been a unique year for the office of City Grand Juror/Assistant City Attorney. Not only has the office been restructured but has been held by three individuals.

John Holler served as Grand Juror from November 5, 1985 until his resignation August 7, 1987. Henry Brislin, City Attorney, acted as Grand Juror from August 7, 1987 until I was appointed January 19, 1988.

Prior to my appointment as City Grand Juror/Assistant City Attorney in January, 1988 and after a six year study, the Office of Grand Juror discontinued prosecuting state misdemeanors. This restructuring allowed this office to expand its responsibilities as Assistant City Attorney and to concentrate, as Grand Juror, on the prosecution of local ordinance violations.

The City Grand Juror's Office has collected \$30,050.70 in criminal fines, and has assisted collecting \$61,772.00 in parking fines. In addition, the Grand Juror/Assistant City Attorney, as of January, 1988, has been legal counsel for the Board of Aldermen, Board of Civil Authority, Planning Commission, Zoning Board of Adjustment, Board of Liquor Control Commissioners as well as assisting many administrative committees including the Personnel Manual

Study Committee, Traffic Committee and Development Review Committee. As Assistant City Attorney, assistance is provided to various committees of the Board of Aldermen such as the Charter and Ordinance Committee, Community Development Review Committee, Public Safety Committee among others. Among the responsibilities of the Grand Juror/Assistant City Attorney, this office prosecutes local ordinance violations such as the enforcement of building codes, open container violations, use and carrying firearms. This office also represents the City and the interests of the Zoning Board of Adjustment regarding variance appeals in the Superior Court as well as assist the City Attorney in non-criminal matters in the Rutland District and Superior Courts.

Finally, I would like to take this opportunity to thank Dorie Keller, the secretary for the legal office, Henry Brislin, City Attorney and John Holler, former Grand Juror for their cooperation and assistance in fulfilling the duties of this office. Also, I would like to thank each member of the Board of Aldermen, Mayor Wennberg, all City Department heads and the City Clerk's and Treasurer's office for their support and assistance.

## Health Officer

James A. Gray, M. D., Health Officer

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

1987-88 has been a year of reorganization for the Department of Health. By the creation of a new position of Deputy Health Officer, the handling of routine inspections and complaint investigations has significantly reduced the number of hours required to perform these functions by the Health Officer. This has freed up time to devote to more professional tasks of surveillance and review of pollution control and other matters which affect the public good. Originally, the position of Deputy was filled by Mrs. Carol Partlow, R.N., who resigned in October, 1987. After a 6 week hiatus, Mrs. Pamela Petrie was hired to fill the ½ time position, with the other ½ time spent as Assistant Building Inspector.

The single most significant event affecting the health of Rutland citizens this year was the closing of the city land fill. A few years ago land fills were thought to be the ideal way of handling garbage, trash and other solid waste materials. Since that time environmental studies have shown that significant quantities of toxic and hazardous chemicals escape into the air and into the soil water channels or remain covered by fill to contaminate the environment for many years. With the operation of the Resource Recovery Plant, most, if not all of these health hazards are eliminated or rigidly controlled to well below the allowable Environmental Protection Agency standards and recommendations. This "State of the Art" facility not only reduces the solid waste to about 10% of it's original weight (much of which is recyclable or useful for other purposes), but also creates significant amounts of electricity. The production of electrical power is done safely without adding uncontrolled contamination to the air and sparing the use of coal, oil and other fuels for this purpose.

Your Health Officer together with the Board of Health has had to become familiar with many new regulations and procedures involved with pollution control and environment protection. The list of toxic chemicals and environmental contaminants and how each is monitored and dealt with is steadily increasing and must be

scrutinized in connection with the city water supply, the sewage disposal plant, rubbish and waste storage and disposal by businesses and city land owners and tenants, as well as the landfill area and the new Resource Recovery Plant. In general all of these matters are being adequately dealt with at this time. However, with financial uncertainties and continued fiscal restraints the future will bring new problems and challenges.

There has been a great deal of interest in chemicals found in public water supplies. During the past year copper and lead have been emphasized and public notices have appeared in the papers and other places advising people to find out what the levels of contamination in drinking water are for these chemicals. The Vermont State Department of Health requires at least one analysis of these and other inorganic contaminants in public water supplies each year. Their report also explains about each of the chemicals tested and states "copper is an essential element in human metabolism: however, in concentrations exceeding 1.0 milligrams per liter (mgm/L) it may impart an undesirable taste to

*Department of Health inspection tour of Vicon Resource Recovery Facility with Chief Engineer John Heiger*

drinking water and stain fixtures green." A small amount of copper is in the water in the reservoir but most of it comes from pipes which carry the water to where it is used. In 1987 the sample from Rutland (City Hall) has less than 0.1 mgm/L and in 1988 the sample from the same place had 0.12 mgm/L. The maximum contamination level (MCL) that is allowed is 1.0 mgm/L so the Rutland water has only about 1/10 of the copper that is considered safe. The picture for lead is even better. The State Report states that "lead is a cumulative poison which can cause severe illness in excessive quantities: therefore, its intake from all sources must be limited. The physiological safe limit for intake from water is 0.05 mgm/L. Any water with lead concentrations exceeding 0.05 mgm/L should be rejected as unfit to drink." Most of the lead in water comes solder at the joints of metal pipes. Whereas lead was actually used in pipes in the past, there is almost no lead used in pipes in recent years. In 1987 the lead level in Rutland City water was 0.008 mgm/L and in 1988 it was reported as less than 0.005 mgm/L or less than 1/10 of the allowed MCL. These and other contaminants will probably be even less when a new way of coating the inside of the city water system has been completed later in 1988.

The Board of Health has had 3 meetings in the physical year 1987-1988. Dr. Blair Campbell, D.V.M. has served on the Board of Health for many years but resigned in early 1988. He received a letter of commendation and thanks from the Board of Aldermen and the Mayor for his devoted service. Dr. Alexander Herzen, M.D. was subsequently appointed to the Board of Health and approved by the Aldermanic Council. Dr. Herzen together with the other members of the Board, Dr. Gordon Smith, M.D., and Robert Beauchamp, BS in Phar-

macy, and your Health Officer have made several inspection tours and visits to the Resource Recovery Plant and have taken appropriate studies and actions in many other health issues for the city. The Health Officer has tried to be present at and has given verbal progress reports to the Aldermanic Council meetings, at least once each month.

Investigations of complaints and problems are ongoing on a day by day basis and are summarized as follows:

Improper garbage storage or disposal	28 investigations
Roaches and vermin in apartments	7 investigations
General health problems by tenants	5 investigations
Horse yard sanitation problems	1 investigation
Sewer back up or leak problems	2 investigations
Rat control problem	3 investigations
Pigeon control problems	1 investigation
Dog refuse sanitation problems	2 investigations
Vacant lot care problems	2 investigations
Dog and animal bite problems	18 investigations

Most of these problems were corrected or adequately dealt with by the Deputy Health Officer and very few citations were required.

The Department of Health has an ongoing coordination with several other Departments of city government and wishes to especially thank Commissioner David Crawford of the Department of Public Works, Bernard Congdon, Water treatment manager, W. E. Conner, City Engineer, Michael Garafano, Director of the City Laboratory at the Sewage treatment facility, John Kollmer, Building Inspector, and Betty Ferraro, Administrator, and Richard Kelley, Project Director of the Vicon Resources Recovery Facility.

Unfortunately we have taken a major step backward with the closing of the Resource Recovery facilities and the opening of the city and other landfill operations at the time of publication of this report.

## Milk Inspector

James A. Gray, M.D., Milk Inspector

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

The Milk Inspector is charged with responsibility for inspecting and issuing annual licenses to all city businesses which process or sell milk or milk products (including cheese, ice cream, yogurt and other dairy products). This year the two major wholesale milk processors and distributors were inspected outside the city limits. Each of these continue to meet all State sanitation and purity requirements on a monthly basis so licenses as a distributor were issued. All of the 123 retail milk or milk products sales stores were inspected and their coolers checked for proper temperature control, and were given 1 year licenses. At the Rutland Fair a total of 22 milk licenses were issued after checking sanitation and adequate cooler temperatures. Eating establishments in the city are inspected regularly by the Vermont State Department of Health and hence are not under the jurisdiction of the City Health Officer. Much of the credit for the accurate inspection and issuing of licenses goes to the Deputy Health Officer Mrs. Pamela Petrie.

*Milk inspection at Rutland Fair*

## Board of Zoning Adjustment

Clifford E. Giffin, Chairman

Honorable Board of Aldermen and Citizens of the City of Rutland:

The Board of Zoning Adjustment has held thirty-one (31) variance hearings for the Fiscal Year ending June 30, 1988. Of the said hearings, fifteen (15) were granted and sixteen (16) were denied.

I would like to express my appreciation to the members of the Board, Stephanie Lorentz, Ann

Wilson, Dr. J. Malcolm McDonald, Thomas Shortle, George Clewes and Royal Barnard for giving of their time so willingly. The Board expresses it's thanks to William Foley who has retired after many years of dedicated service to the Board and the City.

*Members of the Rutland City Planning Commission pictured, left to right: John M. Ruggiero, Esq., Nancy Beauchamp, Edwin Calcagni, Marianne Coombs, Vice Chairperson, Donald Taylor, Roger Gilmore and Peter N. Louras. Not present for picture are John Holler, Esq., and Royal Barnard.*

## Planning Commission

Peter N. Louras, Sr., Chairman

Honorable Board of Aldermen and Citizens of the City of Rutland:

The Rutland Planning Commission is in the process of hiring a City Planner. For the first time, money has been budgeted for this position. It is also hoped that the subdivision regulations for the City will be adopted.

The Rutland Regional Commission has been working on the current land use map for our City Plan. It will be color-coded for easy reading.

A special "thank you" to Valerie Capels who has spent much time in the preparation of the map that will be ready in the near future.

A special "thank you", too, to George Clewes

for his many years on the City Planning Commission. May the subdivision regulations be adopted to show that his efforts have not been in vain.

Thanks, also, to Alexander Shak, Director of Community Development, John Kollmer, Zoning Administrator, to Nan Mattsson, Secretary, and to Christopher Sullivan, Esq., our legal advisor.

The Commission will be spending the coming year preparing the City Plan, new zoning regulations and map.

## Police Department

Paul R. Benson, Chief of Police

To the Honorable Board of Aldermen and the Citizens of the City of Rutland:

I respectfully submit the Annual Report of the Rutland City Police Department for the fiscal year ending June 30, 1988.

This Agency, with the assistance of a state grant, completed a drug awareness manual which will be utilized to educate the community in the dangers and pitfalls of illegal drug usage. It is the posture of this Administration, through the collective efforts of drug awareness programs and aggressive enforcement of illegal drug usage and sales, that the City of Rutland will see a reduction in other related crimes.

This Agency has continued its efforts to involve the community in the detection and prevention of crime through our Neighborhood Watch Program and our continued affiliation

with Crime Stoppers of Rutland County/City, Inc. This Agency has continued to support youth-related programs through the involvement of our Crime Prevention Officer with the public and private school systems within the City and surrounding communities. Additionally, this Agency continues to sponsor a Rutland City Police Explorer Cadet Program.

On behalf of the Department, I want to express our sincere appreciation for the assistance that has been extended to this Agency, by citizens, service organizations, other law enforcement agencies, Mayor and Honorable Board of Aldermen.

In service we remain.

Animal Control - Yearly Report  
1986-1987**

Craig C. Petrie, Animal Control Officer

**Total Animals Taken to R.C.H.S.:**

Number of dogs	198
Number of cats	396
Number of animals	594
Number of complaints	1212
Number of tickets issued	23
Total miles	12,236

During the summer months, several complaints are investigated because pet owners go away; leaving their pets with someone else. The complaints range from lack of food and water to being left outside all the time; which can cause a dog to bark continually until the problem is rectified.

Some considerations should be made prior to leaving as to the age and general health of the pet and boarding the pet at a kennel.

With more building being done in Rutland,

and close contact with wildlife, people and domestic animals are often harmful to wildlife. People who pursue wild animals may be bitten or injured. Pets allowed to run loose or taken into wilderness areas may get into an animal fight or be bitten by a rabid animal. City residents must license their dogs before April 1st, and rabies shots must be updated every two years.

City residents are to confine, or have under their direct control, their pets at all times for its own protection and to preserve the rights of their neighbors. Why? Because unconfined pets can damage gardens and other property, chase joggers and bikes, bite people, fight with and/or kill other domestic animals, cause motor vehicle accidents, and die.

I would like to thank members of the various departments, R.C.H.S. staff, the Humane Society of the United States, and the New England Animal Control-Humane Officers Academy for their assistance and expertise,

# Department of Public Works

David A. Crawford, Commissioner of Public Works

To the Honorable Board of Aldermen and the Citizens of the City of Rutland:

During the fiscal year 1987-1988 there was a reorganization of Equipment and Maintenance Division to provide improved record keeping and tracking of equipment maintenance costs. We feel that the new system will not only be more efficient but cost effective as well. The 1988-89 Fiscal Year Budget anticipates substantial savings from even more efficient and cost effective operation.

A three year Union Contract has been negotiated to cover the period of July 1, 1987 to June 30, 1990. With this new contract, we will be evaluating and revising job descriptions for the Union personnel. Along with revising job descriptions a restructuring of various jobs may be necessary.

Another area of effort has been and will continue to be to improve the delivery of Public Works Services through the use of computers. With our recent access to an IBM XT computer, we can develop improved information handling systems. The Department's ability to answer citizen complaints in a timely fashion should be improved during the coming fiscal year. We will

be using the XT's Work Processing capacities to handle the Department's Operating Policies.

We would like to thank the Board of Aldermen, Mayor, other City departments and all citizens who made some of our goals obtainable this past fiscal year. We are looking forward to working with them again this year.

## ENGINEERING

Warren E. Conner, City Engineer

Alan J. Shelvey, Asst. City Engineer

The Engineering staff under the direction of the City Engineer, Warren E. Conner, provides survey, design, and other engineering services for all divisions of the Department and for other departments within the city government.

As part of these services, the Engineering Division compiles and constantly updates plans and records of the water distribution system, the water treatment system including records and inspections of all sewer systems in the city's watershed, the sewer collection system, the sewage treatment plant, the city's street system and the city's sanitary landfill. The Division also reviews and oversees water and sewer designs and specifications for projects let out for bid, and for streets and utilities built by developers which are to be taken over by the city upon completion.

The Division also provides information to contractors and others concerning location of city utilities, performs all traffic engineering for the city, prepares necessary easements and executes other duties of an engineering nature as required.

The Engineering Division was involved with the following major projects during the year:

One major and one minor sub-Division under construction in the city.

The Stoneridge Development off Dorr Drive involves the construction of approximately 2,960 feet of new city streets including water mains and sanitary and storm sewer systems. A small development off Harrington Avenue involved the construction of one new city street

including water main and sanitary and storm sewer systems. All of these streets will be taken over by the city upon completion and final acceptance by the city.

Review of plans and specifications for a proposed subdivision on Laverne Drive and for the final phase of the Stratton Estates development.

The reconstruction of the intersection of Dorr Drive, Ripley Road and Clement Road by the Munsonn Earth Moving Company was completed in June, 1988.

The Division is presently working with the Agency of Transportation on final plans and contract documents for the reconstruction of State Street from Grove Street to Columbian Avenue. The State Street project will include separation of sanitary and storm sewers, new water and sewer lines and a new bridge over East Creek. This project will be funded with 98% Federal and State funds and 2% City funds with construction planned for early 1989.

A project involving the replacement of rehabilitation of approximately 13,000 linear feet of sewer lines in presently under construction by the Belden Company. This work is being funded by the State and Federal Government at a 90% participation level. Upon completion of this project the City will have rehabilitated approximately 30,000 linear feet of sewer main in the last 3 years. While this rehabilitation will greatly reduce the amount of daily infiltration into the sewer mains, we are still faced with the serious problem of storm water and snow melt entering the sewer system and being transported to and treated at the Sewage Treatment Plant due to the lack of separate storm sewers in most part of the City. To address this problem, the City has entered into a contract with the consulting engineering firm of Dufresne-Henry utilizing a 100% planning advance from the State of Vermont to do a combined sewer overflow study to determine whether treatment of the stormwater or separation of the storm and sanitary sewers is more cost effective. This study is being coordinated and overseen by the Engineering Division.

In response to the lack of a long term solution for the disposal of sludge from Sewage Treatment Plants, the City, through the Engineering Division, is administering a Regional Sludge and Septage Disposal Study with funding provided by the State of Vermont. The firm of

Dufresne-Henry was selected to perform this study. It will address the feasibility of two possible solutions, i.e.: a Regional Land Disposal operation or a Regional Compost Facility. The study is scheduled to be completed in early 1989.

With the upgrade of the City's Wastewater Treatment plant completed, the Division is working closely with Dufresne-Henry in a performance evaluation of the plant which will establish the precise reserve capacity of the treatment plant and also provide the City with options to expand the capacity of the plant in the future.

The following are other projects the Engineering Division was involved with during the year:

- The reconstruction of North Church Street from Field Avenue to the northerly end of North Church Street.

- Reconstruction of Library Avenue and Kendall Avenue from Lincoln Avenue to Grove Street.

- Research and coordinate the corrosion control study of the city's water system

- Establish a computer model of the City's water distribution system.

- Review and coordinate plans and testing requirements in conjunction with the final closure of the City's landfill.

- Review 266 building permits in conjunction with the building inspector's office.

The Engineering Staff consists of Warren Conner, Alan Shelvey, John Havens and Scott Taggart.

## STREETS DIVISION

Henry Monaco, Supervisor

Paul Julius, Foreman

### HOT MIX (BITUMINOUS CONCRETE) PAVING PROGRAM:

2706.75 tons of hot mix was placed by our contractor, Whitcomb Construction, at a cost of \$88,540.39.

Streets paved (or portions of) were: Dorr Drive, Greens Hill Lane, West Street, Engram Ave., Catherine Dr., Summer St., Holly St., Edgewood Dr., Upland Dr., Pine St., Jefferson St., Grant Ave., Church St., Wood Ave., Thrall Ave., Mona Vista, Belmont Ave. Ext., Highland Ave., Emeritus St.

The department installed approximately 690 feet of concrete sidewalks and 414 feet of concrete curbs.

#### **SNOW AND ICE REMOVAL:**

The winter of 1987 had a total accumulation of approximately 65 inches of snow. A total of 3,085 tons of salt and 205 tons of sand were purchased costing \$98,074.36. With the help of the UNAMOG, snow removal was made significantly easier and cost effective.

### **WASTEWATER COLLECTION**

James B. Ward, Chief

Peter T. Kelley, Foreman

The Wastewater Collection Branch is into its third year. The Division has been housed in their building, located at the Wastewater Treatment Plant, since July of 1987. With a small crew of seven, the Wastewater Collection Branch efficiently and professionally maintains the repairs of the storm sewer systems and the sanitary sewer systems in their service.

A new Rodder machine has been purchased this year bringing to two the number of Rodders in use. This will enable the Division to clean more storm and sanitary sewers and have a much needed backup machine to cover breakdowns.

The following work was completed for the 1987-88 year:

New catch basins installed	9
New manholes	7
Sewer main repairs/plugs	45
Sewer plugs private	76
Service connections installed/repared	23
New sewer mains installed	69 feet

### **CITY FOREST AND CITY ORNAMENTAL TREES**

David Richards, City Forester

The City Forester is in charge of all forestry work including management of the city's ornamental trees and the 4,000 acres of the city forest in the watershed.

The sale of all timber on the Rutland City Municipal Forest is carried out under approved watershed management practices to provide a regulated harvest of timber products and to pro-

tect and insure maximum sustained yields of usable water. Timber sales include sawlogs, firewood and pulpwood. Sales are marked out so as to improve the timber stand which remains while providing income for the City. Trees over 6" in diameter at breast height which do not promise to develop into sawtimber quality stems are removed. Large straight trees are left to become more valuable and to provide genetically superior seedlings.

During the fiscal year the following timber sales were sold to logging contractors:

**Rooney Brook Timber Sale**—Tom Grace of Proctor for \$4,675.50

**Lower Pico Timber Sale**—Claire Lathrop Band Mill, Inc. of Bristol for \$14,489.00

**Twin Brooks Timber Sale**—Rock Colburn of Pittsford \$3,140.00

**Cemetery Softwood Sale**—William Poczubot of Rutland for \$1,700.00.

**50 Cord Firewood Sale**—Richard Hubbard of Hubbardton for \$100.00.

The Vo-Tech Schools' forestry program continues to use the Rutland City Forest to train students in logging techniques.

We contracted out (2) Timberstand Improvement jobs to Bobby Connors of Dorset. The two areas totaled 104 Acres and the cost to the City was \$2,200.00. The City Forester did another 54 acres of improvement for a total of 158 acres of timberstand improvement work done during the year.

The Ornamental Tree program maintains the beauty of the City by caring properly for our trees, replacing diseased or damaged trees, and adding new plantings. The effort includes removal of dead or dying trees, pruning and maintenance of healthy trees, and planting additional trees.

During the year, 39 trees were removed from along City streets. Central Vermont Public Service Corporation and New England Telephone helped pay for removal if trees were a danger to their utility lines, and they helped remove storm damaged trees where the lines were involved.

We also continued our basic maintenance program of removing deadwood, cabling for structural support, removing low hanging limbs for street and sidewalk clearance.

We planted 106 new trees on city streets in our tree planting project. Varieties of Maple, Oak, Ash and Crabapples were used.

An additional 61 shade trees were planted on South Main Street. The project was entitled "Rutland Centennial Trees 1892 - 1992". The cost of the project was funded through private donations and 18 of the trees were planted by volunteer labor on a Saturday morning.

It is anticipated that the project will continue on to plant trees on North Main Street in the Spring of 1989 and hopefully to other streets in the future.

## WATER DISTRIBUTION DIVISION

Bruce Matt, Manager

Robert Harvey, Foreman

Comparative figures for the past three years' work programs are:

	1985-86	1986-87	1987-88
Main Extensions	1,150 ft.	567 ft.	581 ft.
New Hydrants	20	16	12
Hydrants Repaired	15	10	11
New Service/Repairs	27	26	15
Relay Services/Repairs	7	36	41
Curb Boxes	71	75	42
New Meters	217	106	92
Repair Mains	6	21	25
Install Valves	10	9	9
Replace Meters	84	53	52

Proposed projects for this year are Robinwood Lane, Perkins Road and the regularly scheduled flushing of fire hydrants.

This year a water additive has been put in the water system to cut down on the rust that builds up in the pipes. Hopefully, this will reduce the complaints of dirty water in our distribution system.

## WASTEWATER TREATMENT DIVISION

G. Lewis Hotaling, Chief Operator

Michael J. Garofano, Laboratory Director

The following is a report of the Wastewater Treatment Plant for the fiscal year 1987-88.

In the past year, the Rutland City Wastewater Treatment Plant received, treated and released 2,083,900,000 gallons of wastewater.

To operate the process, and meet the conditions of our discharge permit, the following chemicals were used:

Chlorine	24,545 lbs.
Sulfur Dioxide	17,410 lbs.
Polymer	2,695 gallons
Lime	0

The following is a breakdown of materials removed from the wastewater stream.

Grit, sand and gravel	95.1 cubic yards
Primary sludge	5,870,000 gallons
Secondary sludge	15,345,585 gallons
Grease & fats	28,000 gallons

The operators of the treatment plant attended several short courses and seminars as part of our continuing training and development program. Several of our operators have fulfilled the State requirements and have received their State Operators Certificates.

The plant was inspected by representatives of the Vermont Department of Water Resources this year with no operational deficiencies found.

An inspection by the Vermont Department of Labor and Industry, this spring, brought to light some minor code violations — which were promptly corrected.

To all those who assisted in making this a successful year of operation, we extend our sincere appreciation.

# Rutland Recreation & Parks Department

John W. Cioffredi, Superintendent

To the Honorable City Council and Citizens of the City of Rutland:

I respectfully submit our Annual Report of events and activities, sponsored by our Department for fiscal year ending June 30, 1988.

#### SPECIAL EVENTS

##### Christmas Events

Holiday Festival, put on by students participating in our programs. Displays of arts & crafts, pottery, demonstration by gymnastics, totastics and drama were a few focal points.

Christmas Party, with a visit from Santa, carols sung and Ice cream donated by Ben & Jerrys.

Other events included, cheering clinic, Christmas crafts, Santa Phone calls, and snow sculpturing.

##### Halloween Events

A Halloween Party for students in grades K-4 with refreshments, costume parade, games and prizes. Our annual Halloween Parade was held October 31 and a "window painting" contest held in conjunction with the Contemporary Downtown Business Association for students in junior and senior high.

#### PROGRAMS RUN IN CONJUNCTION WITH THE RUTLAND FREE LIBRARY

Rob Mermin and his

One Man Circus	January 16
John Gailmore in Concert	February 20
Language of Dance	March 17
Science Circus	April 9

#### ADULT ACTIVITIES FOR FALL & WINTER

#### SENIOR PROGRAMS

The Rutland Recreation and Parks Department's, Senior Center, is an integral part of the City of Rutland Community. Located off Deer Street, the Center offers a wide selection of programs, services and activities for the older population.

The 1986/87 year proved to be a year of transition, with growing interest among residents in creative programs, educational and physical, as well as traditional programs of cards, bingo, etc.

The Rutland Senior Center serves as a meal site for the Area Office of Aging, Nutrition Program, and served an estimated 8,300 meals. Traditional Thanksgiving and Christmas Dinners are served in addition to the regular meals.

An estimated 44,800 men and women participated in programs sponsored through The Rutland Recreation and Parks Department's, Senior Center.

Walter Churchill Scott an active participant of the Center was selected as Senior of the Year, in Vermont, at the Annual Governor's Conference. He was selected for his help in establishing a hiking program.

#### RECREATION PROGRAMS HELD AT THE SENIOR CENTER

Art Classes (oils, watercolors, acrylics)  
Ceramics  
Ceramic Workshops  
Soft sculpture  
Antiquing  
Christmas Workshops  
Ribbon Tying w/ RSVP for downtown

## Spring and Summer Activities

### Playgrounds and Sport Camps

#### White Swimming Pool

Opened for the Season, Monday, June 22. Lessons were offered in the following categories: Beginner, Advanced Beginner, Intermediate I and II, Advanced Swimmer, Basic Rescue and Water Safety and Advanced Lifesaving. Three-3 week sessions of lessons were offered. The City Swim Team, under the direction of Kevin Stanley, competed throughout the State. The City Swimming Championships were held July 27.

*Wading Pools* are located at White Park and Msgr. Connor Park.

#### PLAYGROUND LOCATIONS

Supervised 9 AM-Noon

Rotary Park  
Giorgetti Park  
Msgr. Connor Park  
Northeast School  
Southeast School

#### CREATIVE PLAYGROUND

Ages 4 & 5  
Madison St. Mini Park  
Two-3 week sessions

#### BASKETBALL CAMPS

Grade 5 thru Sr. High  
Held at Rutland High

#### TRACK CAMP

Held at Vo-Tech Track  
Two week Session  
Ages 6-9/10-12/13-14

#### SOCCER CAMP

Held at Giorgetti Park  
Session 1: Ages 7-9  
Session 2: Ages 10-14

#### OUTDOOR ADVENTURE DAY CAMP

Featuring hiking and caving  
Grades 3 & 4/5 & 6/7, 8, & 9

#### PINE HILL DAY CAMP

Held at Giorgetti Park  
Two -2 week sessions  
Grades 1 thru 8

#### Sports Programs

##### BASEBALL PROGRAMS

Mitey Mites	Ages 7-9
Midget League	Ages 10-12
Senior League	Ages 13-18

##### SOFTBALL LEAGUES

Men's A, B, C & D  
Women's A and B  
Morning League

##### BASKETBALL LEAGUE

Boys High School League  
Girls High School League

##### TRACK & FIELD EVENTS

Hershey National	Ages 9-14
City Track & Field	Ages 5-15
Fun Runs	All Ages
Frank Crowley	All Ages

##### TENNIS INSTRUCTION

Two - 3 Week sessions  
Ages 8 and over

##### MAJOR LEAGUE BASEBALL SCOUTING

Instructional Clinic/Tryout  
Ages 16-25, Held July 1st

#### Special Events

##### CAVING/ROCK CLIMBING & RAPPELING

A mobile camp held for  
Grade 5-9 Students teaching  
basic techniques

##### FISHING DERBY

Held at Combination Pond  
for ages 5-13 Co-Sponsored  
by the Kiwanis Club.

##### SAFETY TOWN

A two week program for 4  
and 5 year olds teaching  
skills needed in real life  
situations.

#### REMOTE CONTROLLED RADIO RACES

Held Sunday mornings  
at the race track at  
Rotary Field.

#### DIAPER RALLY ROMP

Held at Giorgetti Park  
for ages 2 and under  
Events include . . . cutest  
outfit, best decorated  
diaper, and crawling races!

#### FAMILY PERFORMANCE

The Green Mountain Guild  
Theatre for children held  
"Lizzie & the White Whale"  
in Center St. Alley.

#### Concerts

#### ART IN PARK

August 8-9

#### LUNCH WITH MUSIC

Center St. Alley  
June 23 thru August 4  
Noon - 1 PM

#### SEVEN TO SUNSET JAZZ

Main Street Park  
June 26 - August 28  
7 - 9 PM

#### KILLINGTON MUSIC FESTIVAL

Center Street Alley  
July 16 thru August 6  
Noon - 1 PM

#### VERMONT SYMPHONY SUMMER POPS CONCERT

Saturday, July 11, 7 PM  
at Giorgetti Park

#### THE METROPOLITAN BRASS QUINTET

Friday, July 10, Noon - 1 PM  
in Center St. Alley

#### CLUBS AND ORGANIZATIONS UTILIZING RECREATIONAL FACILITIES AND PARKS:

Rutland Public and Parochial Schools, Marble City Riders Motorcycle Club, Vermont Association for the Blind & Visually Impaired, Southwestern Vt. Adult Basic Education, East Creek Playhouse, Inc., City Democratic and Republican parties, Citizens Organized for Rutland Education, Trinity Episcopal Church, Marble Valley Players, March of Dimes, Paramount Center, Inc., Wallingford Elementary, Rutland County Farmers Market, Town of West Rutland, College of St. Joseph, Rutland Peace Network, First Baptist Church, CKS Walk-a-Thon, Rutland Area Baseball League, Rutland County Diversion Board, United Way of Rutland, Rotary Club, Chaffee Art Gallery, Knights of Columbus and the Parent's Nursery Guild.

# Department of Education

Charles P. Skiptunas, Superintendent

To The Citizens of Rutland City:

This marks my third year of service as your Superintendent of Schools. Each year we have made very significant progress, which I am most pleased to report to you.

During this past year we were most fortunate in having a number of our students obtain very high academic honors. A number of our students successfully engaged in Advanced Placement studies in Biology, Social Studies, English and Mathematics. Scores earned were truly outstanding.

Our Fine Arts program continues to flourish through very capable leadership of our professional staff. Our students are receiving wonderful exposure for this extremely valuable activity.

The addition of Department Chairmen in each of the academic areas, English, Social Studies, Science, Mathematics, Living Arts, and Guidance are beginning to have their impact through the coordination of programs for all of our children.

We had been cited through the Public School Approval process for our lack of coordination Kindergarten through Grade 12. We are taking steps to correct that deficiency.

We continue to work on our three year plan to better report the progress of our School District through a document we know as our District Progress Report. We hope to formalize the final draft of this instrument for delivery to the Board for October, 1989. We are already making significant strides to identify those areas of the basic skills where we must concentrate our resources, both human and financial, to better serve our children.

This year marks our involvement with all members of our staff working toward school improvement plans consistent with the research and practices of the Effective Schools movement. As you become more familiar with our efforts, I am sure you will share the enthusiasm as we proceed to move forward.

Our high school and junior high school recently completed a two year effort becoming accredited by the New England Association of Schools and Colleges. We are very pleased with the effort demonstrated by our secondary school staff in this very tedious and difficult task, chaired by Kathy Lopes.

We have areas of concern. We once again must bring before the public the necessity for bringing our school facilities into compliance with Public School Approval standards which, very simply stated, improve the health, safety, welfare and instructional delivery systems for our children. We should view that as not spending money, but saving money.

There is a great deal of concern over Rutland's very poor support by the State in providing us our fair share of State Aid to Education. As of this writing, members of your community are working diligently to correct this deficiency. We all hope they are successful.

Dwindling enrollments, Public School Approval Standards, and inconsistent legislation are making the operation of our Rutland Area Vocational-Technical Center extremely difficult. As of this writing, the legislation that governs our operation provides us with no opportunity to adequately plan for revenues to offset our expenditures. It is certainly not fair because many wonderful programs and educational opportunities are being provided for kids of all ages at the Vocational Center.

I am very pleased with the efforts of our staff. Our student body is second to none, and your elected School Commissioners are to be credited for their tireless efforts.

I continue to enjoy serving the residents and children of the City of Rutland. Thank you for your support.

## Marble Valley Regional Transit District "The Bus"

Lawrence A. Dreier, Administrator

The Marble Valley Regional Transit District, generally known as "THE BUS," has just completed its twelfth year of providing public transportation in Rutland County and is still the largest non-urban public transit system in the State of Vermont. It provides transportation to the General Public in Rutland County, as well as to several Social and Human Service agencies.

System ridership during this year has increased noticeably over last year's 120,000. Approximately 283,000 vehicle miles were accumulated on the fleet of 20 buses.

Marble Valley is in the process of renovating its facility located at 158 Spruce Street. The renovations include additional office space to accommodate the continued growth of the system. The office has already been fully computerized for a more efficient operation. The updated equipment and planned facility renovations are paid through monies raised from membership assessments. For every (\$1) dollar Marble Valley raises the Federal and State Governments contribute

(\$3) three. As you can realize the system is of great public interest and value to the community.

Transfers will be offered to the public on August 8th, which will give passengers even more for their money. If a passenger needs to transfer buses to get to his or her destination, he or she can ask the driver for a 25 cent transfer slip. This will enable the passenger to ride almost anywhere in town for a modest charge.

Medicaid transportation (free transportation for Medicaid eligible recipients) has more than quadrupled during the past year. This service is absolutely essential for those who cannot provide their own transportation.

Once again we thank the taxpayers and elected officials of our member municipalities for their financial and moral support so that "THE BUS" can continue to move forward in providing vital public transportation service to the area. As our community grows, so does the transportation needs of the community.

# Rutland Free Library Association, Inc.

Paula J. Baker, Director

To the Honorable Board of Alderman and Citizens of Rutland:

Access to information, services and programs is vital for an active community and has been the major thrust of the board and staff's activities this year.

Most prominent was the board's decision and commitment to provide equal access to library programs and the book collections regardless of physical disabilities. A bond issue for building improvements including the installation of an elevator and a stair lift, upgraded fire and safety code requirements, expansion of a crowded children's room and a study-reference area was placed on the March ballot and narrowly defeated. A reworked plan, preserving major architectural elements of this historic building and at a lower cost, has been placed on the November ballot.

Less attention grabbing but equally important was a steady increase in the number and quality of services offered. Most notable, a reference desk manned 64.5 hours a week by an experienced professional was established. Loan periods were increased, new indexes offered, and three grants totalling over \$25,000 were obtained for the purposes of attacking adult illiteracy and encouraging children in the field of science. The library was selected as a test site for VALS, the Vermont Automated Library System, and will be able to offer access to card catalogs across the state by computer. Fourteen services were added or significantly expanded.

Programs for citizens were both broad and extensive in a year when the continued availability of the Fox Room was uncertain. 11,568 people attended 188 programs offered by the library, in addition to 158 uses of the Fox Room by community groups. These events are possible through an endowment and because of extensive grant writing. The library wrote and

was granted over \$7,650 of additional funding for educational and cultural programs. These included book discussion series, concerts, adult new readers, story hours, a literature series, tours and a special reading group for Seniors at the center.

The circulation of books, tapes, magazines, films and records rose 4% and registration of borrowers went up 11%. The book collections grew to 87,966 volumes and have been targeted for extensive overhaul over the next several years. Upgrading the reference collection has begun and will continue throughout the coming year.

Staffing for increased services, a difficult building and active programming has not increased since 1972 and is augmented by the use of volunteers, RSVP and the Vermont Associates program.

Additional help and support is on the way through the formation of a Friends of the Library group, presently seeking incorporation and nonprofit status. The group lists among their goals support for collections and activities, sponsorship of programs and services, direct financial assistance, soliciting volunteers and stimulating an increased awareness of the library's services.

The Library, an independent organization, receives tax support from Rutland City and Rutland Town. Residents of these communities have free access to the services and collections maintained to meet their needs. An additional 1310 people pay an annual fee to use the library as a nonresident. The right to know, to learn and to experience first hand is a right that belongs to all citizens and one which describes library purpose is its essence. Access remains the key.

# **Rutland County Solid Waste District Annual Report 1988**

## **RUTLAND COUNTY SOLID WASTE DISTRICT ALL DISTRICT MUNICIPALITIES**

In early December the District circulated their proposed 1988 Budget for review and comment. At that time the District had intended to finance their 1988 Administrative Budget by a \$2.00 surcharge on the tipping fee.

As you are probably aware the Vicon facility encountered several set backs in late December that have prevented the plant from operating and also discontinued negotiations between Vicon and the District. These problems have created an overrun in our 1987 budget and also will increase our expenses in 1988 to continue legal and financial negotiations with Vicon in excess of the preliminary 1988 budget that was prepared in December 1987.

Due to the 1987 overrun and additional expenses anticipated in 1988, the District has approved a 1988 budget of \$102,120 at its January 13, 1988 meeting. In addition to the higher budget the District board also voted to return to a taxing system to raise funds to cover their 1988 administrative costs in lieu of the tipping fee surcharge.

Please find enclosed a copy of the final approved budget and a table of individual District tax assessments that will be due in 1988.

If you have questions on this matter please contact the District office or your District Supervisor.

## Regional Ambulance Service, Inc.

David Melen, President

To the Honorable City Council and the Citizens of Rutland City:

Regional Ambulance Service, Inc. has provided Emergency and Non-emergency ambulance service for the City of Rutland since July 1983. During our fifth fiscal year, ending June 30, 1988 Regional Ambulance Service, Inc. responded to 3,346 calls. Of these calls 2,457 were in the City of Rutland.

Regional Ambulance Service, Inc. emphasis has been towards maintaining our motto "To provide the highest quality emergency ambulance care at the lowest possible cost to reduce premature death and disability." During the past fiscal year we were able to request the same assessment amount for the fourth continuous year. The residents of the City of Rutland overwhelmingly approved our request.

We have been able to maintain this level of service without increasing assessments due to the support of our quality Office Staff and Field Personnel. Our Membership program proved to be an effective source of income and has provided

savings to individual members whose needs for our services were required.

We completed construction of additional space for living quarters and office space. This was accomplished with the generous support of the local contractors, businesses and the labor of our dedicated staff.

In June of 1988 we took delivery of a new modular ambulance, replacing a 1983 modular ambulance. This is keeping in step with our goal of replacing one vehicle every year to maintain reliable up-to-date ambulances.

We are proud of our accomplishments and would like to thank the citizens we serve for their support. The Board of Directors and Administration of Regional Ambulance Service, Inc. will continue to strive to provide the highest quality of emergency ambulance care at the lowest possible cost to all of the citizens we serve.

## Rutland Area Visiting Nurse Association

Evelyn Doyle, Executive Director

To the Honorable Mayor Wennberg, City Council and the people of Rutland City:

Thank you for your continued support of the Rutland Area Visiting Nurse Association.

The Home Care services that were provided to City patients are as follows:

Unduplicated patients	794
Skilled Nursing	6101 visits
Physical Therapy	1128 visits
Speech Therapy	16 visits
Occupational Therapy	96 visits
Home Health Aide	5983 visits
Homemaker	3964 visits

Our goal continues to be to provide quality Home Care services so people may remain in their own homes as long as possible.

Other services that the RAVNA provides are:

Prenatal Classes	61 couples attended
Clinic Services	481 unduplicated people served

Public Hypertension &

Cholesterol Screenings 2300 screened

Preventive Health Services Health Program for Industry and Business

Our Agency continues to make every effort to diversify and meet the changing health needs of our communities. Our thanks go out to all of the people of Rutland City that supported our funding request. This allows us to continue to help keep people out of institutions; giving the elderly, frail and handicapped the opportunity to remain at home, giving them a choice of health care.

If you would like more information on RAVNA services, please call 775-0568.

It is always a pleasure to serve you.

# Cemetery Commissioners' Report

Dawn D. Hance, Chairperson

To the Honorable City Council and Citizens of the City of Rutland

After two years of preliminary work this season was marked with progress in restoring the old cemeteries on North Main and West Streets. In 1986 it was decided that the restoration project would have to be carried out in phases since it was too costly to do all at once.

Since then the first step was accomplished when fencing was installed and debris cleared from the areas last year. This spring, after several dead elms were removed from West Street, it was time to give attention to the gravestones which were broken and scattered about. However, in the meantime, the eastern section of the vault on West Street collapsed and required a sizeable expenditure to reconstruct.

In July, after mending the vault, marble carver Michael Fannin and his assistant were able to repair nearly half of the stones in West Street, including Governor Israel Smith's monument. This cemetery, in use since 1817, was in deplorable condition due to vandalism, the elements and neglect. Although there remains more work to be done and some of the stones are beyond repair the cemetery is starting to look better.

In hopes of acquiring additional funds for the project a letter asking for contributions went out to area businesses and was published in the Rutland Herald. As a result of the latter, Mr.

James McCullough of Cuttingsville donated several items of interest to the Rutland Historical Society. These included Ambrose Lincoln Brown's diary that he kept in 1848 while surveying the route for the Rutland-Burlington Railroad and an order and receipt made in 1822 for William Jenkins' marble gravestone, which was manufactured at Middlebury at a cost of \$46. Unfortunately, the Jenkins stone in West Street (he owned the land on which the cemetery is located) is presently flat on the ground but will be reset next year.

Although the fund raising fell short of its goal enough money was realized to complete repairs at North Main Street. This included the prominent table-like monument erected for Judge Samuel Williams by his Masonic brethren in 1800.

The 1988 mowing contract was awarded to low bidder Thomas P. Conway of Pittsfield who has done a fine job maintaining the cemeteries. Both old burial grounds, where many of Rutland's founding fathers are interred, now have the appearance of being cared for. Several letters of encouragement that accompanied the pledges, one from as far away as San Diego, California, showed there is interest and support for this project.

## Office on Aging, RSVP, and One-2-One

John G. Campbell, Executive Director

Anne Rowe, Director

Maria Fish, Director

Three agencies serving older people in Rutland City and surrounding areas received \$27,400 in City funds for services provided in 1988.

The **Office on Aging** (Southwestern Vermont Area Agency on Aging), which is located in the Bardwell House, is the regional provider of meals and senior advocate services provided by or arranged through the Office on Aging during the past year. A total of over 23,000 meals were delivered to homebound elders in the City by staff and volunteers. Another 14,000 meals were provided at three locations within the City: The Bardwell House, Sheldon Towers and the Senior Center of Deer Street.

Other services available through the Office on Aging, either directly or through contract, are a long-term care ombudsman who assists residents of nursing homes and community care homes, legal services through the Senior Citizens Law Project (Vt. Legal Aid), information and referral and volunteer assistance. Senior advocates provide assistance to City residents with benefits applications, problem resolution and linkages with a variety of services or opportunities for assistance. They meet with elders in their own homes. There are also subsidized employment opportunities for people who are aged 55 or older and who have limited incomes. For more information call 775-0486.

The **Retired Senior Volunteer Program** — people helping people — volunteers sharing their life skills to support their community — is an important program that is continuing to grow in strength and services provided to non-profit organizations in Rutland County. The variety of services we provide is almost

unlimited, based on the imagination and skills of our volunteers and the needs in our community. RSVP volunteers serve as receptionists, tutors, library aides, office workers, hospital workers, musicians, nutrition workers at senior mealsites, guardians-ad-litum, day care workers, and friendly visitors. They provide computer expertise, telephone reassurance to frail elders, transportation to medical appointments, tax assistance to elders, work in the correctional center, police department, public schools and many more.

RSVP is the largest program of coordinated volunteer opportunities in the area. It is available to assist people 60 and older who want to help meet community needs through meaningful use of their skills and knowledge. Approximately 360 volunteers participated in the program last year, donating over 50,000 hours of service to the community. 60% of these hours were donated to 45 organizations located in Rutland City by 196 volunteers. The RSVP program recognizes that senior volunteers are a tremendous resource to the community and the self-fulfillment gained through their volunteer work enriches the lives of those who participate. For more information call 775-8220.

The **One-2-One** program operates with a group of dedicated volunteers to provide telephone reassurance, friendly visiting and essential transportation to Rutland County elders. During the past year over 6,500 telephone contacts, 500 visits and 2,500 trips were provided for Rutland City elders. The One-2-One program is part of Rutland Community Programs, Inc. To arrange for services please call mornings 775-8219.

# Employees of City of Rutland, Vermont

## Earnings Over \$300.00

From July 1, 1987 to June 30, 1988

If not stated separately, any applicable overtime is included in total earnings.

## List of Unpaid Taxes as of 6/30/88

The list of unpaid taxes is as it appears on the records of the City of Rutland as of 6/30/88 pursuant to 1 V.S.A. Chapter 5 Sub-Chapter 3.

Persons listed are the owner of record as of 4/1 of the year preceding the tax year shown. Subsequent to the date are taxes that are delinquent. The City realizes that transfers may have occurred subsequent to 4/1 and that taxes

became due and delinquent and such listed individuals may not be responsible for the amounts indicated.

Amounts shown are taxes only exclusive of interest & penalties.

Legend: A—up for abatement. P—payments being made. \*—Paid after 6/30/88.
